SHOP DESIGN

	Checklist	Space plan design	3D visualizations	Furniture proposal	Material proposal
BASIC Free	+	+	Standard	-	-
ADVANCED	+	+	HQ - detailed	+	+

We will send you a short questionnaire to fill out to better determine your needs and preferences. You will have to provide a floor plan with images of your space.

If you have a logo and brand guidelines, please do include them as well.

Space characteristics, optimal space fluctuation, functional as well as sales areas including your personal guidelines are all important factors when planning a space. 20+ years of experience allows us to plan and deliver sales efficient, highly functional and aesthetically beautiful interiors for each taste.

Several views of your future shop are translated into realistic 3D visualizations. They help in comprehending the entire space, the displays, furniture and their relations.

Visualisations include:
Displays & furniture layout
Floor design proposal
Wall design proposal
Ceiling design proposal
Lighting design proposal (fixtures)
Furniture proposal
Decors, materials and supplier recommendations (Advanced only)

Proposed furniture is described with images, short description and a supplier suggestion.

Materials and decors are explained with images, text and a supplier suggestion.

PRODUCTION

Located in Zagreb, Croatia, only a half an hour drive from the national airport dr. Franjo Tuđman.

2500 m2 large production halls.

35 employees working closely with our designers and engineers.

Shipping world wide.

Materials used in our production are mainly aluminium, acrylic, glass and MDF which is prepared by our cooperators but finished inhouse. Technology processes in our production include CNC and laser cutting, plastic molding, spot welding etc.

Beside our standard product lines, we also produce custom products for large companies within industry. Some of the clients we've worked for are: MPG Group, Mokki, Apollo Optik, Optical Centre, Krys, Optic 2000.

Detailed ambient lighting calculation is made to achieve and provide ideal light distribution throughout your future space. Lighting fixtures and supplier suggestion included.

Front view, floor plan or shop window plan with display exact dimensions and instructions for the successful installation of our displays.

Please be aware that delays and additional fees are to be expected if the space isn't prepared for installation within the agreed dates.

Front view of each wall with exact dimensions, our displays and required electrical sockets.

Production time is 8 – 10 weeks from the confirmed order – for an entire shop.

Shipping type, price and time depends on the location and the product quantity and weight.

Truck transportation

Inside Europe:
4 – 10 working days.

Sea freight

Via Rijeka, Croatia and Bremerhaven, Germany sea ports: 2 – 4 weeks.

Air freight

Outside Europe:
5 – 7 working days.

Express shipping

Small orders only:
1 – 2 working days.

Every product is delivered with assembly instructions. Installation team is available for an additional fee for the installation of an entire shop. If the space is set for installation, the entire shop can be completed within a day.

SHOWROOM

Our newly renovated 220 m2 showroom is located in Mannheim, Germany, only an hour drive from the Frankfurt airport. Located in an up and coming design district, a former industrial area, it is surrounded with many design businesses and popular venues.

Start your project in a creative and inspirational atmosphere! Explore the variety of our displays and their unique features at first hand.
