

Sky Line

Beautiful and simple solutions for shop windows!

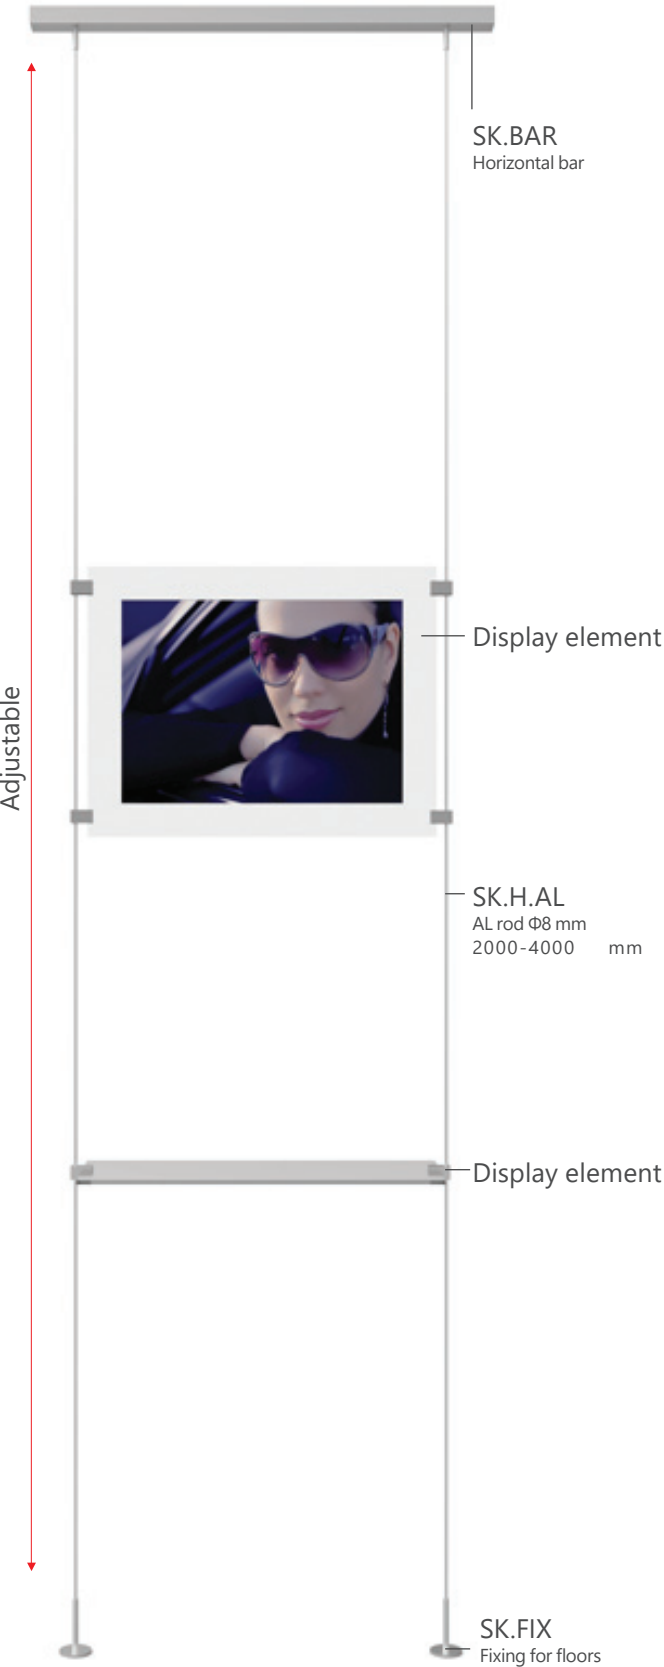

Minimalistic design of Sky Line displays will set an accent in your shop window but also keep it clean for the ideal view inside.

Displays are easily installed into any space and come in different designs. Choose between pre-defined displays or create your own.

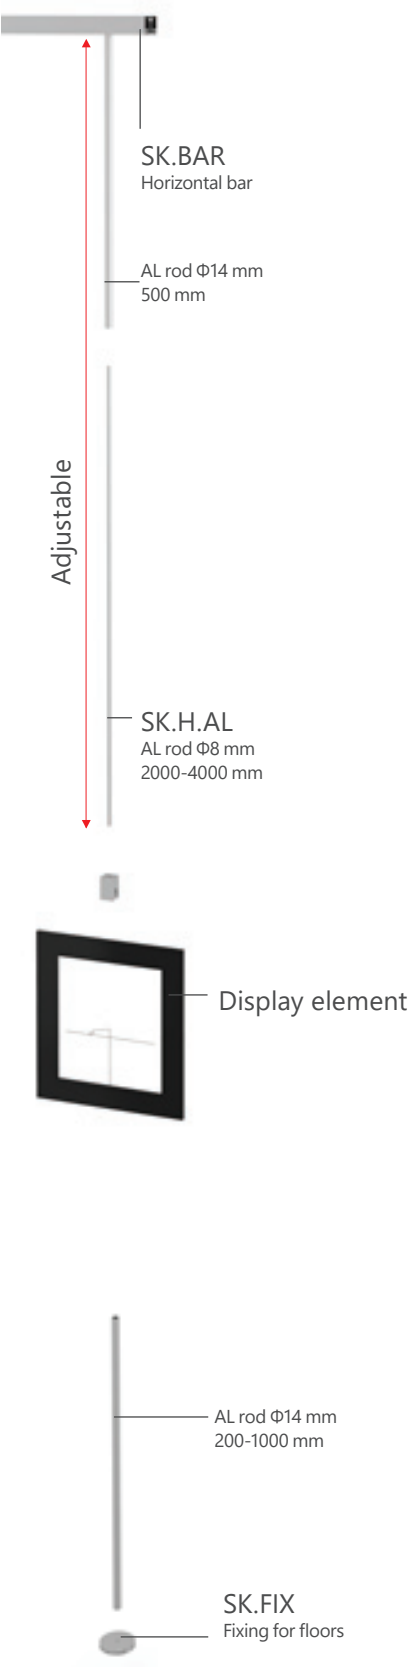

Light construction of 1 or 2 aluminium rods allows simple insertation of different Sky Line display elements for a fully custom look. Each element can be easily rearranged and updated to keep your window always fresh and interesting.

Sky Line Construction

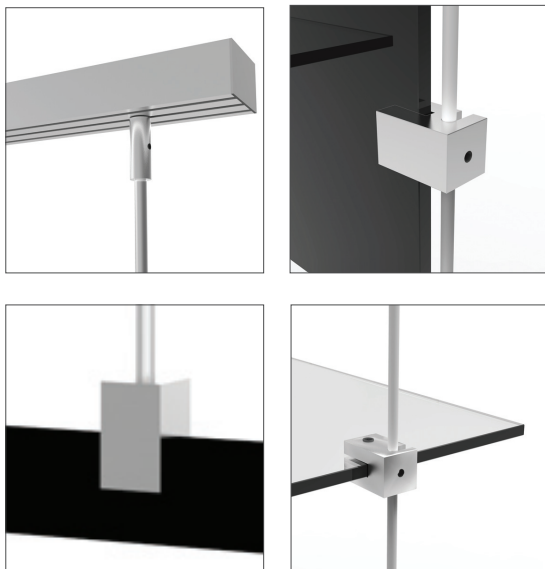

2-rods installation

1-rod installation

Standard connection parts

Display is easily fixed onto any type of the ceiling with a horizontal bar - SK.BAR.

Displays are installed onto a vertical rod (SK.H.AL) which can be also fixed into the floor. Fixing (SK.FIX) into the floor is optional and depends on the chosen display.

3 basic connection parts allow easy fixing of chosen elements onto the rods. Parts are included in the price.
