SYSTEMS

7 unique glasses display systems for walls.

Every system is available as a single display unit or with our wall displays!

Minimalistic design.

Unique features.

User-friendly installation.

DISCOVER

02

RR RODS

Aluminium rods in open and key-lockable version.

04

SRC RODS

Remote lockable aluminium rods.

10

UNILOCK

Universal lockable plate.

14

SINGLE LOCK

Lockable frame holders for shelves, wall panels and shop window displays.

16

CLEAR LOOK

Aluminium bar with open or key-lockable frame holders.

20

MULTI PIN

Steel wire with open or lockable frame holders (pins).

24

PIN SOLO

Acrylic panel with cut-out holes and pins as frame holders.

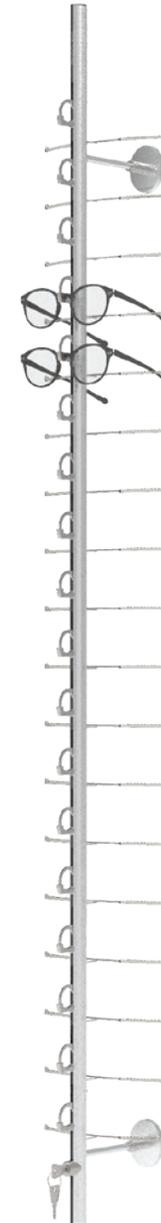

RR RODS

5-year guarantee on rods.

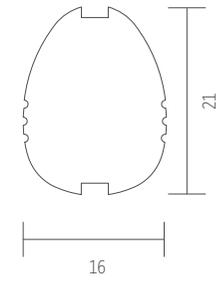

PATENT
Retractable hook provides more space for handling and minimizes eyewear damage.

INSTALLATION

One fixing (RR.BH3) for all surfaces:
drywall, plywood, concrete & brick wall.

Required distance between the rod and
the back surface is 126 mm.

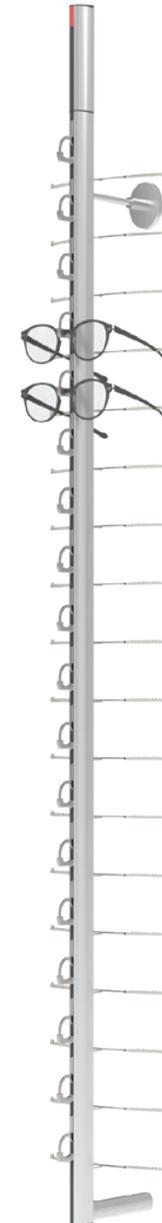

Recommended distance between
the rods is 200 mm.

SRC RODS

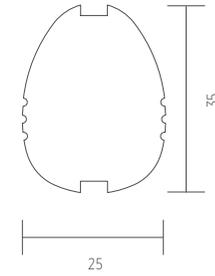

5-year guarantee on rods.
2-year guarantee on electronics.

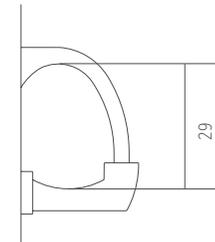

SRC ROD

ROD PROFILE

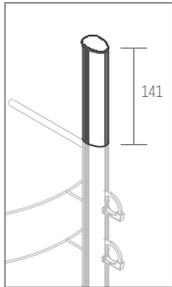

HOOK SIZE

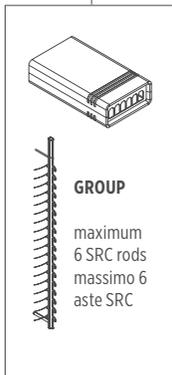

SRC ROD SYSTEM

2-year guarantee on electronics.

MOTOR

Allows remote locking of a single rod. Simple installation on the top of the rod - with a click.

RECEIVER

Receiver controls 1 GROUP. 1 GROUP contains maximum 6 SRC rods.

GROUP

maximum 6 SRC rods
massimo 6 aste SRC

ADAPTER

A.SRC.ADP

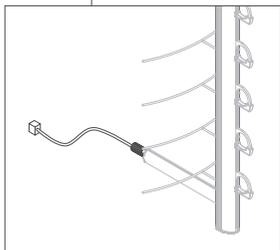

RADIO FREQUENCY A.SRC.RCU

Remote control

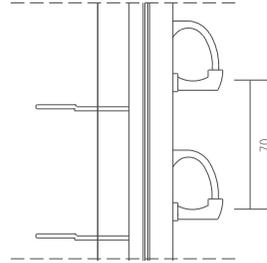

Programme and control up to 14 SRC GROUPS.

CABLE

Every SRC rod comes with a 1,40 m long cable with jack at the end - to plug into the receiver.

DIMENSIONS

70 mm frame distance

1360 mm	16	SRCRF16
1430 mm	17	SRCRF17
1500 mm	18	SRCRF18

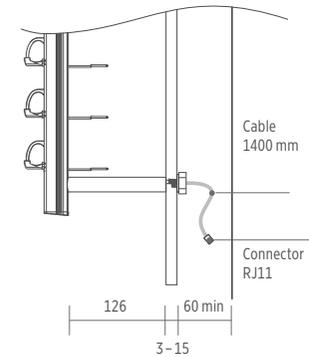

INSTALLATION

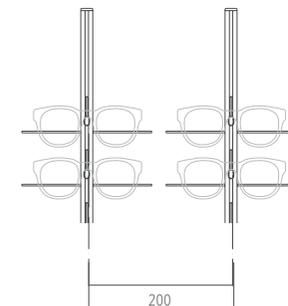

Easy maintenance & replacement in case of malfunction.
2 year guarantee provided!

One fixing for all surfaces. Rods can not be installed directly onto a wall, additional plate in required.

Required distances between the rod and the back panel (3-15 mm thick) is 126 mm. Minimal distance required for the electrical parts (cable RJ11 connector) is 60 mm.

Recommended distance between the rods is 200 mm.

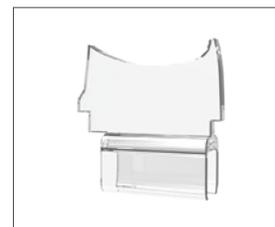

ACCESSORIES FOR RODS

SUPPORTS & ADAPTERS

A.RR.BS
Support for frame temples.

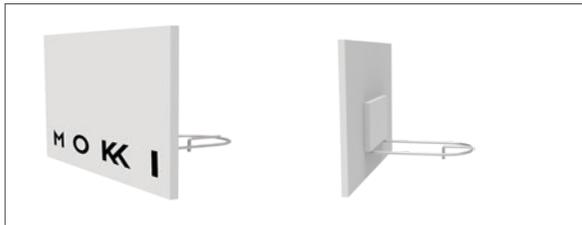

A.RR.ADP
Adapter for small eyewear. Reduces space inside the rod hook from 29 mm to 15 mm. 20 pieces in 1 package. Acrylic.

LOGO HOLDERS FOR RODS

Acrylic logo holders with exchangeable paper inserts.
A.RR.LH1.L 120x80 mm
A.RR.LH1.S 120x50 mm

A.RR.LH2
 Rectangular acrylic logo holder with print.
 120x50 mm

A.RR.LH3
 Elliptical logo holder.
 72x57 mm

A.LH3.STC
 Self-adhesive 3D sticker with print.

Rectangular logo holder with magnetic front.
 120x50 mm

A.RR.LH4 RR rods
A.SRC.LH4 SRC rods
A.LH4.STC Front with print.

A.RR.AP
 Advertisement holder with exchangeable paper inserts.
 A5 DIN format

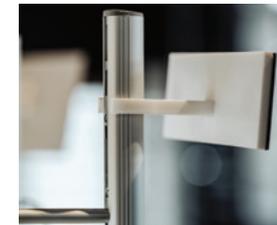

A.RR.M1
 Mirror
 150x110 mm

INSTALLATION

1

1

2

All accessories can be easily mounted onto both SRC and RR rods.

There are two installation methods:

1. FROM THE BACK

The accessory holder (aluminium wire) is easily inserted from the back side of the rod.

2. FROM THE FRONT

The accessory can be mounted directly onto the front side of the rod or attached to the hooks.

DECORATIVE FOILS & POWDER COATING FOR RODS

Decorative vinyl foil for rod. 7 decors available (see image). Foil can not be added afterwards nor ordered separately. For more information please contact our designer.

RR.F.OAK Oak
RR.F.NUT Nut
RR.F.CHE Cherry
RR.F.BEE Beech tree

RR.F.BM Black matte
RR.F.WM White matte
RR.F.CAR Carbon

Decorative powder coating for rod. Black and white coating available in gloss and matte finish. Coating can not be added afterwards. For more information please contact our designer.

RR.PC.BM Black matte
RR.PC.WM White matte

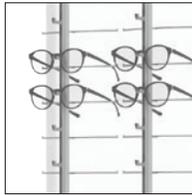

ROD SYSTEMS

INSIDE OUR STANDARD DISPLAYS

RR DISPLAYS

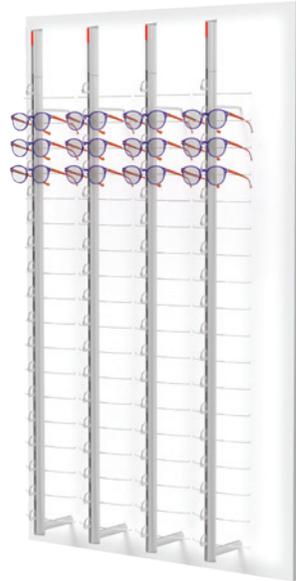

Non-lockable RR rods.

RR displays are available with lockable and non-lockable RR rods. One rod contains 18 frames unless specified differently. Optional LED lighting and Dual storage upgrade.

900x1500x280 mm / 4 rods / 72 ☉
 700x1500x280 mm / 3 rods / 54 ☉
 450x1500x280 mm / 2 rods / 36 ☉

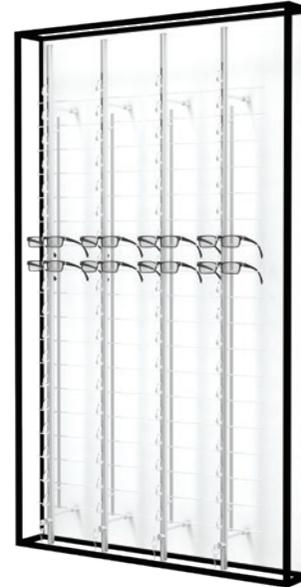

SRC DISPLAYS

SRC displays come with remote lockable SRC rods. One rod contains 18 frames unless specified differently. Optional LED lighting and Dual storage upgrade.

900x1500x280 mm / 4 rods / 72 ☉
 700x1500x280 mm / 3 rods / 54 ☉
 450x1500x280 mm / 2 rods / 36 ☉

STRUKTURA DISPLAYS

Struktura rod displays come with lockable and non-lockable RR rods. One rod contains 18 frames unless specified differently. Optional LED lighting.

930x1530x230 mm / 4 rods / 72 ☉

DUAL STORAGE

Dual storage system is an additional cabinet installed behind your wall display of choice. It remains hidden until you open it like a closet. It consists of a back panel (installed directly onto the wall), and door panel(s) onto which the display of choice is installed. Both back and door panels can contain shelves - 15 per panel. Door panel can be single (left or right winged) or double (central opening). Optional key-lock. Optional integrated white LED lighting.

UNILOCK
LOCKABLE PLATE

PATENT APP
EP Nr.: 17 190 213.3
EP Application Date: September 8, 2017
US 2019/0075944 A1
Application Date: March 14, 2019

UNILOCK PLATE

Simple to adjust for and install on existing shelves.
Patented locking system to lock all frame holders simultaneously.

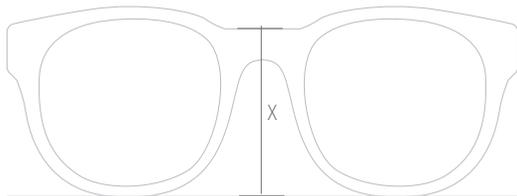

PLATE
8 mm white acrylic

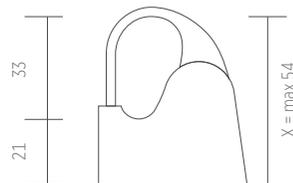

BUTTON

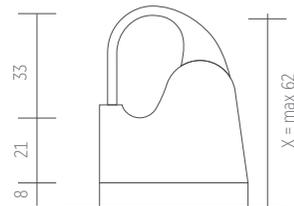

FRAME HOLDERS

A.UL.GH
Standard

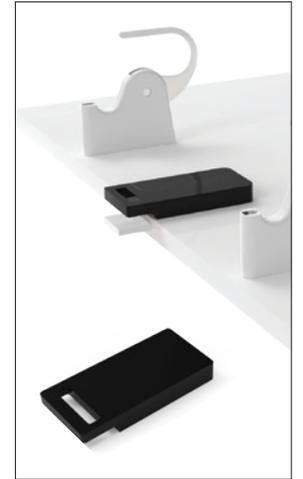

A.UL.GHEX
Extended

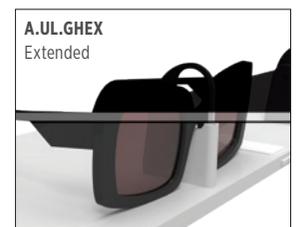

MAGNETIC KEY

Key is placed on a magnetic field to activate the locking mechanism and to lock/unlock the frame holders.
Key is universal for all UniLock shelves.
Optional custom logo engraving.

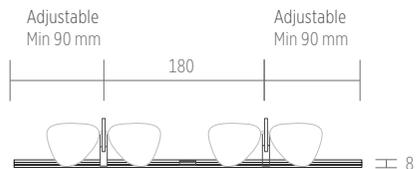

FRAME HOLDERS

Frame holders are integral part of the plate and can not be bought separately nor added afterwards. You can combine the two frame holders on a single plate.

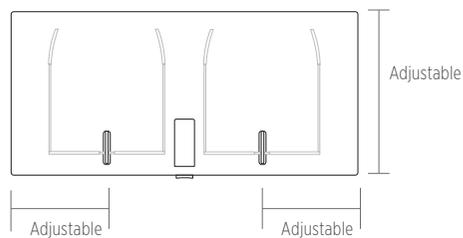

DIMENSIONS

Plate width is determined by the number of frame holders, and the required distance between them - 180 mm.

The depth and width of the plate can be adjusted to fit existing units.

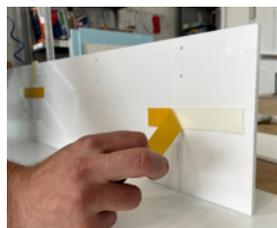

Standard dimensions	Capacity	STANDARD frame holders	EXTENDED frame holders
386x187x8 mm	2 00	UL.S.2	UL.EX.S.2
636x187x8 mm	3 00	UL.S.3	UL.EX.S.3
836x187x8 mm	4 00	UL.S.4	UL.EX.S.4
900x187x8 mm	5 00	UL.S.5	UL.EX.S.5
1080x187x8 mm	6 00	UL.S.6	UL.EX.S.6
1260x187x8 mm	7 00	UL.S.7	UL.EX.S.7

INSTALLATION

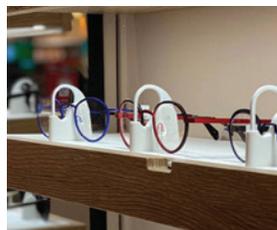

The plate can be mounted on all types of materials, including acrylic, wood, glass, metal sheet, etc.

Locate the double-sided adhesive tape at the bottom of the plate and peel off the protective film.

Press the plate firmly onto the designated surface using the double-sided adhesive tape.

Once properly installed, it will securely adhere to the existing shelf.

To remove the plate, carefully cut the double-sided adhesive tape underneath using a scalpel. When replacing or reinstalling it, make sure to thoroughly clean off any remaining adhesive residue, wipe down the plate, and apply a fresh strip of adhesive tape for secure attachment.

UNILOCK SYSTEM

INSIDE OUR STANDARD DISPLAYS

DISPLAY WITH 7 SHELVES

Every shelf has magnetic-coded key lock. Magnetic key opens/locks all frame holders on 1 shelf simultaneously. Integrated white LED lighting into every shelf.

- 900x1500x280 mm
7 shelves / 35  or 10 shelves / 50 
- 700x1500x280 mm
7 shelves / 21  or 10 shelves / 30 
- 450x1500x280 mm
7 shelves / 14  or 10 shelves / 20 

DUAL STORAGE

Dual storage system is an additional cabinet installed behind your wall display of choice. It remains hidden until you open it like a closet. It consists of a back panel (installed directly onto the wall), and door panel(s) onto which the display of choice is installed. Both back and door panels can contain shelves - 15 per panel. Door panel can be left or right winged. Optional key-lock. Optional integrated white LED lighting.

SINGLE LOCK LOCKABLE FRAME HOLDERS

SINGLE LOCK SYSTEM

The system includes a single frame holder with a lockable hook and a magnetic key. It can be mounted on various walls, shelves, and our display systems.

SL.S
Lockable frame holder for shelves.

SL.W
Lockable frame holder for wall plates.

A.SL.MK
Magnetic key - universal for all Single Lock frame holders.

A.SL.ADP
Hook adapter for small eyewear.

SINGLE LOCK

MULTIPLE APPLICATIONS

WALLS & SHELVES

FOR OUR SYSTEMS

A.CL.SL
Lockable frame holder for Clear Look bars.

A.SKS.SL
Lockable frame holder for Sky Line Solo shop window displays.

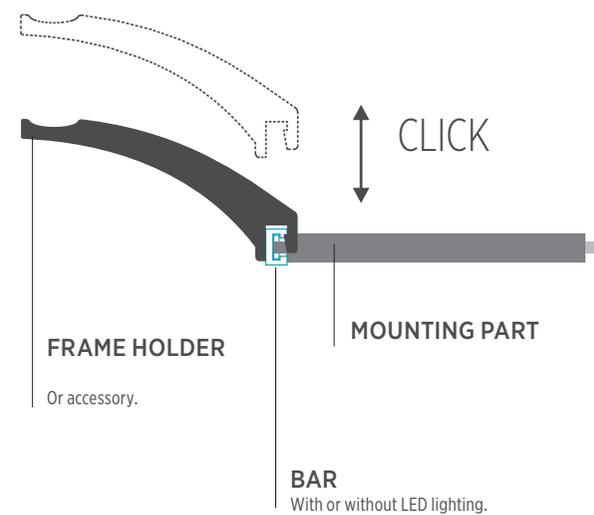

MPSL.P
Lockable pin without the wire for Multi Pin system.

CLEAR LOOK

CLEAR LOOK SYSTEM

The simple display system includes a horizontal bar and various eyeglass and accessory holders. The bar is available with or without LED lighting.

LED LIGHTING

Subtle, indirect white lighting is installed inside the bar - LED stripe.

CLEAR LOOK BAR

CL.R / CL.RE

Front view

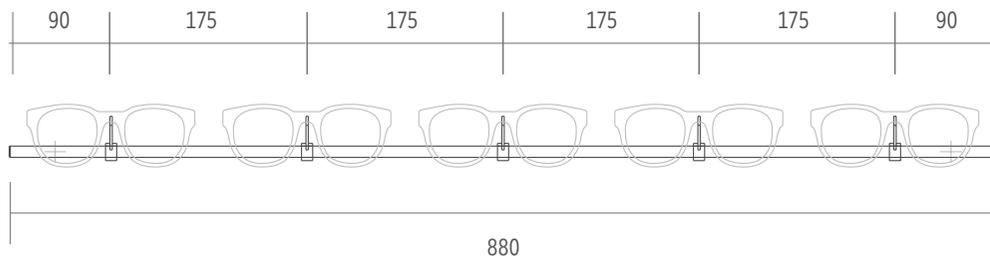

CL.R / CL.RE

Back view

Recommended frame distance is at least 175 mm.

DIMENSIONS

CL.R

Aluminium bar, 1 m. Cut with ease to desired dimensions. To install 1 meter of Clear Look bar, 2 mounting parts are required.

CL.RE

Aluminium bar with integrated LED lighting, 1 m. Cut with ease to desired dimensions. To install 1 meter of Clear Look bar, 2 mounting parts are required.

INSTALLATION

MOUNTING PARTS

To install 1 meter of Clear Look bar, 2 mounting parts are required.

CL.WM.1

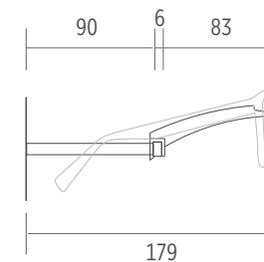

Installation on the panel with no access from the back will require CL.WM.1 fixing. This type of front installation does not support CL.RE bar with integrated LED lighting.

CL.WM.2

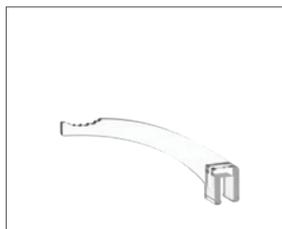

Installation on the panel from the back will require CL.WM.2 fixing.

The distance between the top of the frame holder and the back panel is 179 mm.

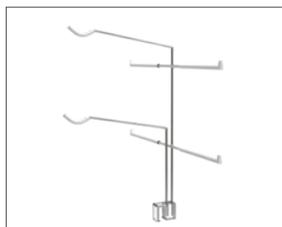

FRAME HOLDERS

A.CL.GH1
Frame holder, transparent acrylic.

A.CL.GH2
Frame holder, aluminium.

A.CL.GH3
Frame holder, aluminium.

A.CL.SL
Lockable frame holder with magnetic-coded key lock.

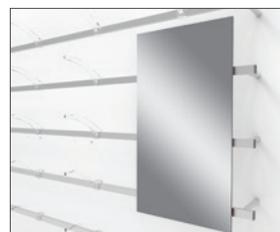

A.SL.MK
Magnetic-coded key.

ACCESSORIES

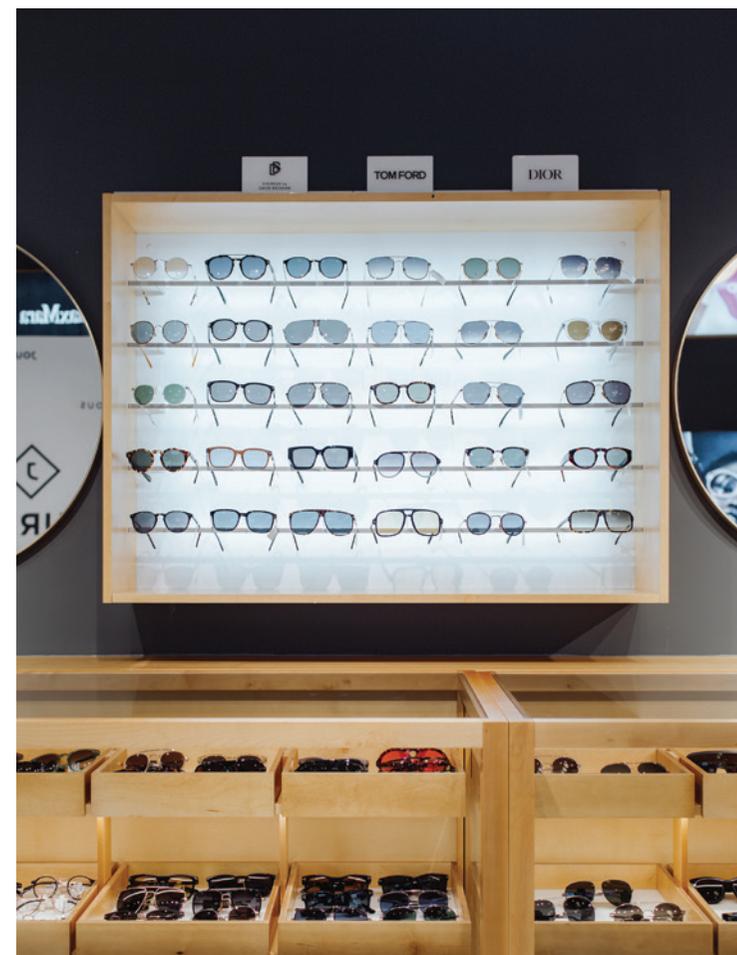

A.CL.LH1
Acrylic logo holder with exchangeable paper inserts.

A.CL.M
Acrylic mirror.
140x240 mm

A.CL.EH
Acrylic case holder.
140x65 mm

CLEAR LOOK SYSTEM

INSIDE OUR STANDARD DISPLAYS

DISPLAY WITH 15 BARS

Frame holders in transparent acrylic.
Optional LED lighting and Dual storage upgrade.

900x1500x280 mm / 75 ☉
700x1500x280 mm / 45 ☉
450x1500x280 mm / 30 ☉

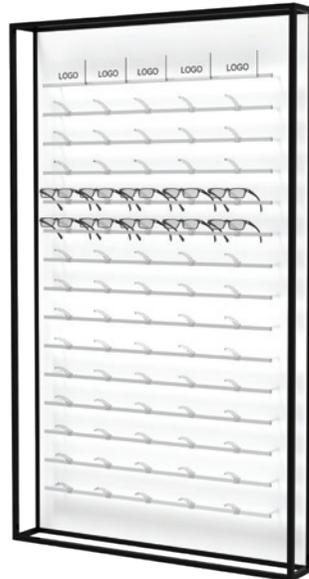

DISPLAY WITH 8 BARS

Frame holders in aluminium. Optional LED lighting and Dual storage upgrade.

900x1500x280 mm / 56 ☉
700x1500x280 mm / 42 ☉
450x1500x280 mm / 28 ☉

STRUKTURA DISPLAYS

Panel with bars is placed inside an aluminium construction.
Frame holders in transparent acrylic.
White LED lighting included.

930x1530x335 mm / 75 ☉

DUAL STORAGE

Dual storage system is an additional cabinet installed behind your wall display of choice. It remains hidden until you open it like a closet. It consists of a back panel (installed directly onto the wall), and door panel(s) onto which the display of choice is installed. Both back and door panels can contain shelves - 15 per panel. Door panel can be single (left or right winged) or double (central opening). Optional key-lock. Optional integrated white LED lighting.

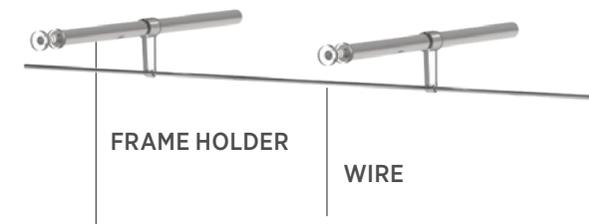

MULTI PIN

MULTI PIN SYSTEM

1 steel wire supports 1-6 pins. Wire length varies from 250 up to max 1200 mm. Pins come in non-lockable and lockable version. Every pin is easily mounted on the wire - with a simple click.

MP.P
pin

MPSL.P
lockable pin

A.SL.MK
Magnetic-coded key.

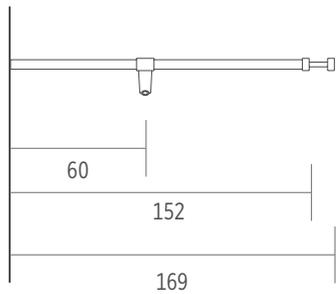

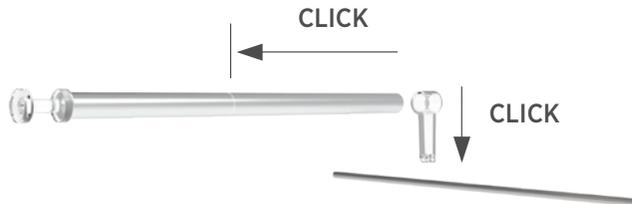

A.SL.ADP
Adapter for lockable frame holder.
Anti-theft and slipping protection for small eyewear.

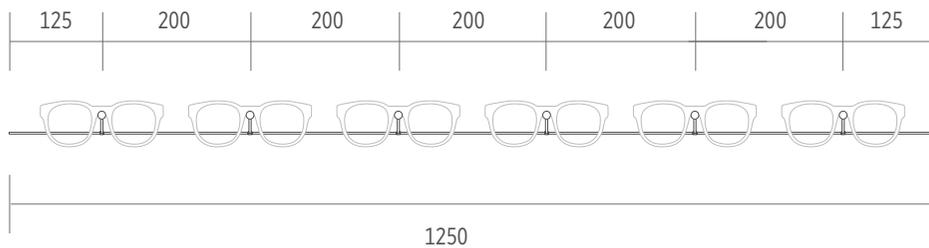

MULTI PIN SYSTEM

Simple pin installation on the wire.

Required pin distance from the installation surface is 167 mm.

Required distance between pins is 200 mm.
Maximum wire width is 1250 mm.

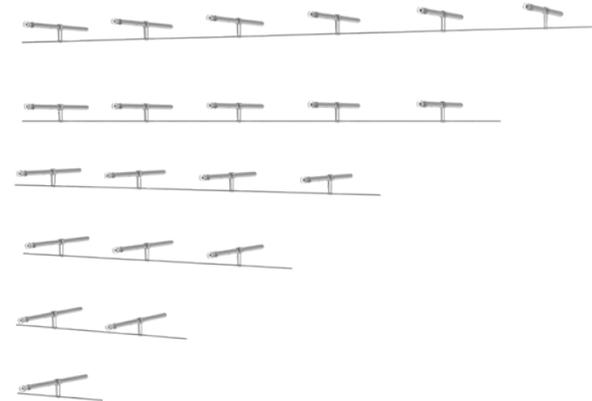

DIMENSIONS

STANDARD

LOCKABLE

Standard dimensions	Capacity	Standard	Lockable
250 mm	1 00	MP.1	MPSL.1
450 mm	2 00	MP.2	MPSL.2

700x1500x280 mm / 54 ☉
450x1500x280 mm / 36 ☉

4 plates with 16 wires are placed inside
an aluminium construction. White LED
lighting included.

930x1530x335 mm / 64 ☉

Dual storage system is an additional cabinet installed behind your wall display of
choice. It remains hidden until you open it like a closet. It consists of a back panel
(installed directly onto the wall), and door panel(s) onto which the display of choice
is installed. Both back and door panels can contain shelves - 15 per panel. Door panel
can be single (left or right winged) or double (central opening). Optional key-lock.
Optional integrated white LED lighting.

PIN SOLO

PIN SOLO SYSTEM

Pin Solo displaying system consists of an acrylic panel with cut-out holes in various patterns and simple frame holders. Panel can be bought as single unit and installed directly onto the wall, or with our wall panels.

Panel in acrylic has cut-out holes of different shapes and patterns. Holes work as the back support for eyeglass temples.

Pin is mounted onto the panel to hold the frames. Available in lockable version as well. Number of pins on one panel are defined by the panel holes and overall design.
